

Important Notice Re FOBS being attached to students' school bags

During this past week all fobs have been attached to the bags of students making use of school transport. Arrangements will be made for those students who were absent on the day and still do not have their fob attached. Parents need to download an app called **Schoolbusnet** from Play Store or Apple Store. A video with instructions on how to download the app can be viewed on the link below.

<https://youtu.be/pTpQhR92jcs>

Anyone who had previously applied for school transport but is now not making use of it or is using private transport and who does not wish to have the fob attached to the school bag has to unregister from the service. The parent/guardian needs to send an email to schooltransport@gov.mt informing them that they will not be making use of the school transport.

For more information about the transport fobs please visit <https://schooltransport.edu.mt/monitoring-system/>
