21st January 2021

Dear Parents/Guardians,

As Head of School, I would like to once again put your minds at rest that we are in strict observance of the protocol, procedures and following all measures as per Guidelines issued by the Health Authority. ***I have just been informed that the school has a student who resulted positive to the COVID-19 virus*** and the school is already following all procedures under the guidance of the Health Authorities. The student last attended school on the 15th of January.

I would like to inform you that the School's COVID-19 Liaison Officer and Health Authorities are in the process of collecting the relevant information in order to perform a risk assessment. Any person who requires to be put in mandatory quarantine will be contacted by the Health Authorities. Please note that if you are not contacted you do not need to take any other additional measures. The school community, including yourselves, shall remain guided by the Health Authorities and act accordingly. The School has also taken all necessary actions to clean the school as per Health Authorities protocol.

It is also important to note that when either reporting a positive case or informing us that a test resulted negative, official evidence needs to be presented (such as a copy or attachment of official letter or SMS issued by Health Authority). Do not hesitate to contact us should you require further clarifications from our end.

Thank you for your cooperation and understanding.

Best Regards

Joseph Ellul
Head of School
